

QUESTLED Rectangular LED Swoop Recessed Downlight

Product description

The QUESTLED luminaire combines high performance LED componentry with the versatile design of the QUEST to produce an energy saving solution for the retail and commercial industries. The swoop design allows the QUESTLED to be used for accent lighting whilst still being a great solution for general lighting. This makes it a perfect candidate for wall wash, window beds and other display lighting applications as well as general lighting in atriums, retail space and board rooms.
