

ROPHOXLED Round LED Recessed Downlight

Product description

The ROPHOXLED luminaire combines high performance LED componentry with the versatile design of the ROPHOX to produce an energy saving solution for the retail and commercial industries. The swoop design allows the ROPHOXLED to be used for accent lighting whilst still being a great solution for general lighting. This makes it a perfect candidate for wall wash, window beds and other display lighting applications as well as general lighting in atriums, retail space and board rooms.

Specification
